street

In un loft di prestigio come in un ambiente informale, in un'architettura contemporanea o in una ristrutturazione inedita, Street si impone come un fresco, versatile, elegante protagonista dell'ambiente bagno. Il suo segno formale distintivo è la maniglia integrata nell'anta, sia nelle composizioni lineari che in quelle curve, con una modularità che consente di creare qualsiasi soluzione. Vastissima anche la gamma delle finiture: dal laccato bianco a 47 diverse tinte laccate lucide oppure opache; dal rovere sabbato, nelle tonalità crema, malto, argilla, castoro, tabacco, al rovere colorato in 47 colori opachi e bianco, fino ai nuovissimi colori con effetto gofrato in 12 tinte diverse; per un totale di ben 161 finiture.

In a prestigious loft or an informal setting, within contemporary architecture or a fresh restoration, Street represents a youthful, versatile, elegant component of the bathroom. The handle built-into the door represents its distinct, formal symbol, both with linear and curved compositions, with modularity which enables the creation of all solutions. There is also a huge range of finishes: ranging from white lacquer to 47 different lacquer colours, both gloss and matt, from etched oak in crema, malto, argilla, castoro, tabacco, to coloured oak in 47 matt colours and white, right up to the very latest colours with 'gofrato' effect available in 12 different colours to total 161 finishes.
